

FIOCCHI Sporting Cartridges

Clay Target Shooting.

Fiocchi have a range of cartridges to satisfy every shooter's requirements. The four lines of cartridges have been studied and

developed with the help of Fiocchi technicians and Fiocchi Team shooters. The results obtained in many competitions all

over the world confirm that the choices made were the right ones.

OFFICIAL FIOCCHI TEAM line

These are cartridges manufactured with the highest quality components selected, controlled and tested to assure the best performance. Among the many victories

with this ammunition we established a record that we intend to improve for the future: Official cartridges won, for three consecutive years, the title of World Champion in the three Olympic disciplines.

Code	Cartridge	Case	Colour	Shot g	Size	Boxes	Muzzle Velocity m/s	Pressure bar
86 5197	OFFICIAL TRAP - 24	12/70/22	blue notte	24	7,5	25-250	410	560
86 5198	OFFICIAL TRAP - 24	12/70/22	blue notte	24	8	25-250	410	560
86 5003	OFFICIAL SKEET	12/70/16	blue notte	24	9,5	25-250	410	650
86 5004	OFFICIAL DOUBLE	12/70/12	blue notte	24	8,5	25-250	420	540

FIOCCHI TRAP Line

It includes a complete range of calibers, heads, weight and shot numbers. Product reliability is continuously checked, not only in our laboratories, but also at the shooting grounds.

Velocity, pressure and pattern are always under control according to shooter's requirements.

Code	Cartridge	Case	Colour	Shot g	Size	Boxes	Muzzle Velocity m/s	Pressure bar
86 3030	TOP TRAP 2 - 24	12/70/12	blue notte	24	7,5	25-250	415	605
86 3031	TOP TRAP 2 - 24	12/70/12	blue notte	24	8	25-250	415	605
86 5417	TOP TRAP BLACK - 24	12/70/16	blue notte	24	7,5	25-250	395	580
86 5427	TOP TRAP BLACK - 28	12/70/16	blue notte	28	7,5	25-250	380	540
86 3127	TOP TRAP 20 - 24	20/70/16	yellow	24	7,5	25-250	385	650
86 3128	TOP TRAP 20 - 24	20/70/16	yellow	24	8	25-250	385	650

FIOCCHI SKEET Line

The creation of the Skeet line by following up the trap cartridge family would have been very simple. The great results obtained confirmed us that the choice to develop this new line of cartridges in a dedicated

way, according to the requirements of Skeet shooters, was the right one.

Code	Cartridge	Case	Colour	Shot g	Size	Boxes	Muzzle Velocity m/s	Pressure bar
86 3034	TOP SKEET 2	12/70/12	blue notte	24	9,5	25-250	410	640
86 3129	TOP SKEET 20	20/70/16	yellow	24	9,5	25-250	385	650

Other DISCIPLINES

This field includes all cartridges which are used in emerging disciplines, particularly the hunting ground with its different versions. This line has recently been changed to improve the quality level and

assure the excellence of performances on the footboard.

Code	Cartridge	Case	Colour	Shot g	Size	Boxes	Muzzle Velocity m/s	Pressure bar
86 5135	SPORTING 28	12/70/12	transparent	28	7,5	25-250	400	600

FIOCCHI Hunting

The hunting world knows Fiocchi, a historical reality which evokes an instinctive emotion in shooters and hunters' past. Fiocchi business begins in this sector and continues to develop together with the changing needs of hunters. From the very beginning,

all components, particularly empty primed cases, are Fiocchi's strength: they enabled the firm to acquire exceptional know-how and use it in the manufacturing of finished cartridges. Thus, it can be stated that the range of Fiocchi

cartridges is the final outcome of more than 120 years of experience, manufacturing and use of all these products and their components.

BASIC line

Basic line includes the most widespread calibres and shots in different sizes and weights. This range is the synthesis of Fiocchi standard cartridges whose ballistic characteristics and practical performances place them at

the highest level in shooters and hunters' preferences.

Code	Gauge	Cartridge	g	Shot size	Wad	Muzzle Velocity m/s	Pressure bar
86652000	12/67/12	PL 32	32	0#12	plastic	400	685
86356000	12/70/16	PL 34	34	0-2-4#11	plastic	400	620

MAGNUM line

This is a range of cartridges of high-level performances whose components and loading specific elements have recently been updated. The changes allow a perfect balance between pressure and speed values thereby

assuring excellent results in all conditions.

Code.	Gauge	Cartridge	g	Shot size	Wad	Muzzle Velocity m/s	Pressure bar
86517000	12/76/27	MAGNUM	52	0-2#8	plastic	375	960

86406000	20/76/16	MAGNUM	35.5	0-2-4#7	plastic mix	400	900
86401000	20/70/16	SEMI MAGNUM	32	0-2-4#8	plastic mix	405	860
86388400	36/76/16	MAGNUM	19.5	4-6-7.5-8#-10	plastic	375	800

BUCKSHOTS and BRENNEKE ball line

These cartridges stem from the awareness that the hunter, when using them, has to be sure that the risk of missing the target is minimum. Therefore, during the planning phase as well as in the manu-

facturing, control and test stage, the details are particularly taken into consideration.

Code.	Gauge	Cartridge	g	Shot size	Wad	Muzzle Velocity m/s	Pressure bar
